

LOGNOTE -- Chief, Operations Group, 11 October 1983

1. DD/A reports that many airlines are refusing to accept GTR's. GSA has not yet concluded its contracts with the airlines for FY 1984 and consequently the airlines, which already are losing money, are declining to give a discount to the government. Presumably Central Processing will provide the traveler with cash to purchase tickets, but this has not been confirmed as of this morning.
